

The **UKA Group** is one of the leading project developers for renewable energies in Germany. UKA's project pipeline in all its markets currently exceeds 19 gigawatts. In addition, the Group's asset management subsidiary UKB handles the technical and commercial management of wind and PV farms in Germany. Let's work together towards a successful energy transition. We are looking for a:

SENIOR RENEWABLE ENERGY DEVELOPMENT PROJECT MANAGER (m/f/d) at our office in Rome, Italy.

The Role:

- Manage the entire development cycle of a renewable energy project (wind or PV solar) from the initiation to entering into operation in Italy.
- **Proven experience in:**
 - Having obtained Administrative Authorizations for wind farms and PV plants including associated infrastructures released by the relevant Regional and/or National Administrative body.
 - Grid access & connection, Technical Access Contract, EON-ION-FON with ENEL and TERNA.
 - Having obtained Environmental Impact Approval for wind farms and PV plants.
 - Joint Evacuation infrastructures.
 - Land lease negotiation, plot list (piano particellare) and expropriation.
 - Elaborate relevant documentation provided in the frame of the Administrative Authorization, Grid Connection and Construction.
 - Experience in technical and legal due diligence performed on buy-side and sell-side.
 - Liaise with internal experts and external consultants supporting the project design and technical due diligence.
 - Elaborate relevant technical and commercial terms for land lease, DDS and/or acquisition contracts.

The Individual:

MSc in Electrical Engineering.

- At least five years professional experience in wind farms and PV plants project development and management.
- Experience in preparation of and follow up on Sole Authorization processes of wind farms and PV plants in accordance with Regional and/or National regulations and execute projects for wind farms and PV plants.
- Experience in preparation of and follow up on technical documentation for grid access and connection requests.
- Team player.
- Advanced knowledge of MS Office and QGIS.
- Willingness to travel.
- Languages: Italian and English (C1).

What do we offer:

- Opportunity to work in an international environment.
- An interesting range of tasks in a dynamically developing renewable energy industry.
- Opportunity to personally and professionally develop.
- Friendly and supportive working atmosphere.
